

Support for 101-4 Funded Academic Staff Positions in Horticulture

To meet a college-wide budget reduction in 2011, the Department of Horticulture will equalize support across all 101-4 funded Academic Staff technical support positions in faculty programs. This puts the estimated dollar amount available to support Academic Staff technical positions in faculty programs at between \$20,500 and \$21,000 during this fiscal year. Each faculty program will receive the same amount.
